

STERASPACE WASHROOM + AIR & SURFACE SANITISER

THE MOST ADVANCED VIRUS
AND BACTERIA CONTROL
TECHNOLOGY OF ITS KIND

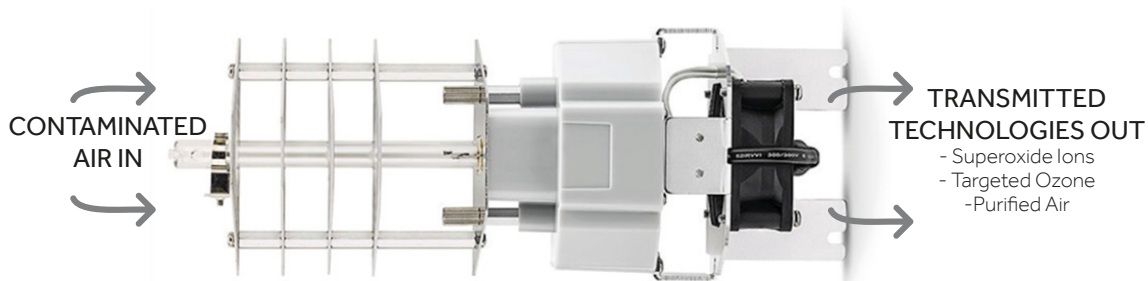

-
-  Proven to kill 98.5% of airborne and 99.6% of surface micro-organisms
 -  Controls infections by killing bacteria, viruses, mould and fungi
 -  Removes odours, pollen, pollution and smoke
 -  Provides 24 hour protection, 365 days a year
 -  For use in enclosed spaces of up to 40m²
 -  Suitable for all high footfall, public & commercial washrooms

AIRFLOW | TECHNOLOGY | EXPERTISE

The SteraSpace Washroom + Air & Surface sanitiser provides continuous protection from the spread of harmful bacteria, viruses, mould, fungi and odours. The unit works by combining three advanced technologies in order to emit a constant flow of disinfecting plasma which is proven to eliminate micro-organisms both in the air and on surfaces.

INTERNAL TECHNOLOGIES

- Germicidal Irradiation
- PCO – Photo Catalytic Oxidation
- Dual Waveband UV Technology

EFFECTIVELY REMOVES

MICRO ORGANISMS

FUNGI

BACTERIA

ODOURS

MOULDS

VOLATILE ORGANIC COMPOUNDS

ADDITIONAL BENEFITS

- Cleans deep into fabrics, prolongs life of carpets and soft furnishings
- Eliminates need for masking agents
- Can help to reduce staff absenteeism and agency costs
- Improves environment for residents, staff and visitors

OPERATION & SAFETY

The SteraSpace Washroom + Air & Surface sanitiser has the highest micro-organism and odour control capabilities of the SteraSpace range. Designed for use in high footfall washrooms, it can offer protection in spaces up to 40m² and has the added benefit of being vandal resistant.

For wall or ceiling mounting via 4 fixing points. The unit is efficient to run and needs just one annual lamp change.

UV light cannot escape from the unit from any angle ensuring it is completely safe. Ozone levels used are substantially below the most stringent emissions regulations in the world.

THE EFFICACY OF THIS DEVICE HAS BEEN TESTED BY UK PUBLIC HEALTH LABORATORIES

- This technology has been proven to kill 98.5% of airborne and 99.6% of surface micro-organisms
- 206% more powerful than chlorine
- Energy Field equals to 10,000 times of natural sunlight
- 157% more powerful than hydrogen peroxide

MODEL	STERASPACE WASHROOM +
Dimensions	420mm (l) x 140mm (w) x 95mm (d)
Weight	1.5 kg
Power Supply	220-230V 11.5-13 watts (via switched fused spur)
Construction	Anodised aluminium, solid extrusion.
Operation	Continuous, indicated by blue lamp. Fan operation distributes sanitised air throughout washroom. Requires annual lamp change.
Area Size	10m ² / 20m ² / 30m ² / 40m ²
Cover Material	Anodised aluminium
Cover Colour	Titanium
Installation options	Wall or ceiling, vertical or horizontal mounted
Product codes	PCA30 – 30m ² area size, high footfall PCA40 – 40m ² area size, high footfall PCA30X – 30m ² area size, extreme footfall PCA40X – 40m ² area size, extreme footfall
Best suited applications	Suitable for all high footfall, public & commercial washrooms. High footfall is classed up to 1,000 washrooms visits per day. Extreme footfall is classed as over 1,000 washroom visits per day.

AFTERCARE & SERVICING MADE EASY

- 12-month warranty as standard
- UK sales & support team
- Quick & simple parts ordering

- Annual lamp change required
- Comprehensive instructions included
